Jungian archetypes are defined as universal, archaic symbols and images that derive from the collective unconscious, as proposed by Carl Jung. They are the psychic counterpart of instinct. It is described as a kind of innate unspecific knowledge, derived from the sum total of human history, which prefigures and directs conscious behavior.

Jungian archetypes - Wikipedia

BOLT Architecture is based in Brooklyn – the new social and cultural Mecca. This is a world where the needs of the last century are being enhanced and displaced by the needs of today. The environmental, social, cultural, technological and economic changes of the past fifty years have given rise to vastly different architectural and planning needs.
