Cod A Biography Of The

Cod, Mark Kurlansky's third work of nonfiction and winner of the 1999 James Beard Award, is the biography of a single species of fish, but it may as well be a world history with this humble fish as its recurring main character. Cod, it turns out, is the reason Europeans set sail across the Atlantic, and it is the only reason they could.

Cod: A Biography of the Fish that Changed the World: Mark ...

The majestic cod as us landlubbers know it. Cod - one of the most common fish in the sea - provided food for millions. What started as simple fishing boats has ballooned into enormous trawlers that were capable of draining the see of a once limitless population. Invention and innovation led to decimation of the natural cod population.

Cod: A Biography of the Fish That Changed the World ...

Cod is the common name for the demersal fish genus *Gadus*, belonging to the family Gadidae. Cod is also used as part of the common name for a number of other fish species, and one species that belongs to genus *Gadus* is not called cod. The two most common species of cod are the Atlantic cod, which lives in the colder waters and deeper sea regions throughout the North Atlantic, and the Pacific cod, found in both eastern and western regions of the northern Pacific. *Gadus morhua* was named by Linnaeus

Cod - Wikipedia

Gadus morhua, or cod, has been an important commercial fish for about six hundred years. As early as 1620, cod fishing was the center of international conflict as various nations attempted to monopolize rich fishing grounds.

COD FISHERIES
COD FISHERIES of North America lie off the coasts of New England, Newfoundland, and Labrador. The earliest explorers to the northeastern coast of North America noted the abundant presence of the cod. John Cabot spoke of it, and in 1602 Bartholomew Gosnold gave Cape Cod its name because of the great quantity of the fish in its waters.

February 1998 BOOK REVIEW - by Carol Standish. Cod - A Biography of the Fish that Changed the World (Walker and Company; 294pp; \$21.00) is an odd little book (literally only 5 x 7 inches). After its shape, which does make it stand out on the bookstore shelf, the first clue to its oddness is the antique map which decorates its endpapers.
