Creative destruction (German: schöpferische Zerstörung), sometimes known as Schumpeter's gale, is a concept in economics which since the 1950s is the most readily identified with the Austrian-born economist Joseph Schumpeter who derived it from the work of Karl Marx and popularized it as a theory of economic innovation and the business cycle.. According to Schumpeter, the "gale of creative ...

The Staff Handbook gives only a simplified explanation of the University's pay and benefit programs. In the event of a conflict between the descriptions in the Staff Handbook and the terms of the applicable payor employee benefit plan, the latter instrument must rule since it is the legal instrument that actually constitutes the plan.

OU Staff Handbook

UHS has developed written compliance policies and procedures that are designed to establish bright-line rules that help personnel carry out their job functions in compliance with federal healthcare program requirements, and to further the mission and objectives of UHS and its facilities.

Heidegger concludes that what is necessary is 'a destruction—a critical process in which the traditional concepts, which at first must necessarily be employed, are deconstructed down to the [experiential, phenomenological] sources from which they were drawn' (Heidegger 1988: 22f.). But Heidegger's position may be insufficiently, or ...
