Women And The Frontlines Of COVID-19 - Forbes

In the old days, women could not support a family or even themselves. Most women did all those chores because they didn't have much of a choice. Today, women who earn enough to support themselves enter into permanent commitments more carefully. The question that needs answering is why more elite men and women succeed in finding partners worthy of commitment, while those further down the socioeconomic ladder do not.

The Economics of Family Behavior | Institute for Family ...

Friedrich Engels wrote on how the economic structure of the family is shaped by the structure of class society. According to Engels, the monogamous family, consisting of one man, one woman and children, is something created by the class system. So are adultery and prostitution, institutions that go together with the monogamous family system.

Family economics - Wikipedia

Land is perhaps the most important economic asset; women account for only 12.8 per cent of agricultural landholders in the world. Women and girls suffer most from the dearth of safely managed water and sanitation. Women and girls are responsible for water collection in 80 per cent of households without access to water on premises. Menstrual hygiene management is difficult in the absence of water, soap and gender-responsive sanitation facilities, whether at home, school or work.
